NOTICE OF PUBLIC HEARING
concerning

**RENEWAL OF WASTE DISCHARGE REQUIREMENTS
(NPDES PERMIT NO. CA0078034)
FOR
THE CITY OF WILLOWS
WILLOWS WASTEWATER TREATMENT PLANT
GLENN COUNTY**

The City of Willows (Discharger) owns the Willows Wastewater Treatment Plant (Facility). The Discharger contracts with Severn Trent Services for the operation of their Facility. The Facility is located in Willows, Glenn County and provides advanced secondary level biological treatment including influent screening; biological treatment including extended aeration basins and secondary clarifiers; continuous backwash sand filters; chlorine disinfection using sodium hypochlorite; dechlorination with sodium bisulfite; and flow equalization storage basins. Sludge from the secondary treatment system is temporarily stored and dried within two 3.75 million gallon sludge lagoons. The current design capacity of the Facility is 1.2 mgd (average dry weather flow). The Facility discharges wastewater to Ag Drain C, a tributary to Logan Creek, a water of the United States and tributary to the Colusa Basin Drain. The discharge is regulated under an existing National Pollutant Discharge Elimination System (NPDES) permit. The Discharger submitted a Report of Waste Discharge and requested renewal of the existing NPDES permit. Staff recommends the Central Valley Water Board adopt the tentative NPDES permit to regulate discharge from the Facility.
